*20 Maggio- 26 Novembre 2023*

In the occasion of this year's Architecture Biennale in Venice, La Galleria, the Venetian branch of the gallery Dr. Dorothea van der Koelen from Mainz, shows the theme exhibition *Blue - The Colour of the Place*.

With eleven artists from nine countries, the exhibition combines a wide variety of artistic positions and cultural backgrounds. Dr. Dorothea van der Koelen presents in her galleries international avant-garde and new tendencies of concrete, conceptual and minimalistic contemporary art and artists as Lore Bert, Daniel Buren, Mohammed Kazem, Joseph Kosuth, Nam Tchun-Mo, Fabrizio Plessi, Arne Quinze, Reinhard Roy, Turi Simeti, Günther Uecker, Jan van Munster.

Just like the lagoon city itself, which stands for diversity and the meeting of different cultures, this exhibition is also in the best sense a melting pot of art, for which only the best has been selected.
